HYBORIAN™ WAR

Kingdom report for Keshan

Turn: 1

Winter Warseason

NATIONAL HISTORY

Listen well, O Lord of the blood, to these words. Thy people are the Keshan, and thou art descended of the great Alkmeenon race. Few people are as misunderstood as thy Keshan. The world believes us to be backward and barbaric, and while many of our jungle tribes are little more than savages, still we are more, much more than we seem.

Our Alkmeenon forebears ruled a vast, powerful empire, and employed magics beyond any seen today! And then, many hundreds of years ago, the Alkmeenon age of power and glory ended abruptly. Some say it was a great plague, others the scourge of the gods, but none can know. Some of the Alkmeenon who survived began again in the village of Keshia, after which our kingdom is named.

Foreigners see our humble royal palace, built of mud, stone, and bamboo, but do they notice our strong city walls nearing completion? They laugh at our simple customs, but do they know we have a strong government, a written language, and a complex society? We are civilized though we live in bamboo palaces, we rulers remember our Alkmeenon heritage.

Always remember, O powerful one, we have an ancient feud with Punt, a worthless people who flaunt their great wealth, gold washed from their central hills. We harbor a hatred of the Stygians who have despised us since the time of Alkmeenon eminence. They yet raid our borders for slaves to serve in their pagan rites to Set.

Thy most recent forefathers have strengthened the Stygian borderlands, forcing the abominable snake-worshippers to raid Darfar for their slaves. This has been a great success. But our recent incursions into the Puntish Gold Hills have gone badly. This is what thou must change for the better, if thou would rule thy land in the manner thy fathers, and thy people, demand.

Heed well my words, Great One, and I will tell of the length and breadth of thy land.

TROOPS

Know, my Lord, that from old your people have been warriors. All told, there are 4 troop types at your disposal. May it please thee, I have listed each type of troop available to thy kingdom below, giving my considered judgement as to the various abilities of each. I have also noted the relative cost to our Royal Treasury to train and outfit one troop of each kind respectively. By necessity, a certain minimum of each troop type must be maintained among the total armed forces of thy kingdom. Likewise, no more than a certain maximum percentage of your troops may be of any one type. Below I have inscribed any special notes pertaining to each troop type.

Keshan Spearmen : Troop Type 1
Troop Category : MI - Medium Infantry

Missile Combat Ability : GOOD
 Melee Combat Ability : GOOD
 Morale : GOOD
 Movement Rate : 3

Keshan Spearmen must make up a minimum of 45% and may not exceed a maximum of 85% of your total number of troops.
 The cost to Train and outfit Keshan Spearmen is LOW.

Keshan Bowmen : Troop Type 2
 Troop Category : LIA - Light Infantry Archer
 Missile Combat Ability : EXCELLENT
 Melee Combat Ability : POOR
 Morale : GOOD
 Movement Rate : 4

Keshan Bowmen must make up a minimum of 10% and may not exceed a maximum of 55% of your total number of troops.
 The cost to Train and outfit Keshan Bowmen is LOW.

Keshan Chariots : Troop Type 3
 Troop Category : LCH - Light Chariots
 Missile Combat Ability : POOR
 Melee Combat Ability : GOOD
 Morale : GOOD
 Movement Rate : 5

Keshan Chariots may not exceed a maximum of 5% of your total number of troops at any one time.
 The cost to Train and outfit Keshan Chariots is MODERATE.

Darfar Savages : Troop Type 4
 Troop Category : LIA - Light Infantry Archer
 Missile Combat Ability : EXCELLENT
 Melee Combat Ability : POOR
 Morale : GOOD
 Movement Rate : 4

Darfar Savages troop is unique. Only one troop of this type may exist at any time.
 Darfar Savages are well adapted to combat in Open and will fight in that terrain with increased ability.
 Darfar Savages cost no gold to raise but must be paid HIGH wages each year.

PROVINCES

Look upon your land, my Liege, and study well the terrain map that I place in your hands with this report. For knowing the land will help you prepare for battle. May you maneuver thy armies to the best advantage that the land provides. I have painstakingly recorded below a list of each of your provinces. IMPERIAL GOALS

Let me tell thee of the dreams of your sires and the dreams of their fathers before them. It is known, my Lord, that if only the following imperial goals can be achieved, a new age of glory and prosperity shall dawn upon the kingdom. Thus have the rulers of Keshan ever strived to conquer and control the following provinces and control a continuous line of provinces between them and any home province of Keshan.

The rulers of Keshan ever strive to conquer and control the following provinces:

The Marshland Region of The Western Jungles
Taia of Stygia

If successful in achieving these goals, Keshan will truly become an empire and will be immediately able to raise ten Imperial Troops of a type presently unknown to us.

VICTORY CONDITIONS

Know, Great One, that from days of old it has been prophesied that one would come to us, one who would lead us to glory and victory over all our enemies. Word already spreads throughout the land and among our people that you indeed may be this one. If you would lead us to victory, heed closely to what I now impart to thee. Below I have listed which factors will either benefit or adversely affect the victory of thy kingdom.

You will move closer to victory by increasing and fostering the economic strength of your kingdom through it's provinces. You may do this by conquering new provinces and seeing to the prosperity and productivity of the ones which you now control.

You will make major progress towards victory by controlling:

The Gold Hills (134) of Punt.
Taia (149) of Stygia.
Zamboula (248) of Zamboula.
The Grasslands of Amazonia (357) of The Western Savannah.
